

If you are a Small to Medium sized business (SME) working, or looking to work, in the medical/life science sector...

...then your business could benefit from our support just like Personal Care Packs, a Leicester based supplier of emergency patient care packs, who received a grant via the SoLSTICE programme - a project part-funded by the European Regional Development Fund

Personal Care Packs Ltd

The challenge to meet the needs of vulnerable patients being admitted to hospital without access to basic hygiene provisions

The support received facilitated a clinical trial providing customised care packs to 6,000 patients across 5 NHS Trusts

The result

- Accelerated innovation
- Increase in sales

SUPPORT AVAILABLE:

- **Innovation Grants:** up to £20K covering up to 30% of the investment
- **Specific Advice:** signposting and guidance
- **Free events:** to exchange ideas and stimulate engagement of SMEs alongside academia, clinicians and businesses

Support from the **SoLSTICE** (Smart Life Sciences Technology Innovation & Commercialisation Enabler) team is impartial, confidential and free to SME businesses, and individuals based in the Local Enterprise Partnership area of Leicester and Leicestershire.
